

POPFASD District Partner Role

After discussions with our Steering Committee, the POPFASD team has created the following acronym to highlight the role of a POPFASD District Partner:

Facilitate any requests for information and access to:

- In-person workshops – no charge to Districts (1 per year)
- FASDcasts – online presentations for schools/districts
- FASD 101 On-Demand course
- Livestream presentations – typically 4-5 offered per year
- Collaborative Action Research Study Grant – CARS

Attend (virtually or in-person) our annual District Partner Meeting(s). If unable, please consider sending a representative.

Share pertinent information from our monthly newsletters, upcoming presentation flyers, and other resources, within your district

District contact for anything connected to FASD and/or POPFASD.

We appreciate your support in enhancing educator's capacity to support learners with FASD.

Thank you!
